## Virtual Tours

Tucson has been continuously settled for over 12,000 years. It celebrates a diversity of cultures, architecture, and peoples. Yet, it is one of the "Mega-Trend" cities of the 21st Century: the Optics Valley, premier health services center for the Southwest, the astronomy center of the world, home of a premier research institution - University of Arizona, and a tourism destination.

Tucson, too SAHN or TOO sahn, is one of the oldest towns in the United States. Tucson was originally an Indian village called Stook-zone, water at the foot of black mountain.
